

### August 2024

This table shows the assets of UK building societies, ranked by group assets, taken from their latest annual reports. These figures have not been adjusted to take account of any mergers, transfers of engagements or purchases of mortgage portfolios that have taken place since the societies' financial year end.

\* The Society has no Group - the Society Assets figure has been repeated in the Group Assets field.

**Note: Society assets can be larger than the Group assets. This is generally due to the accounting treatment of inter-company loans to lending or covered-bond subsidiaries or loans retained on the Society balance sheet from securitisations. These net out at a Group level so that Group total assets are lower than Society total assets.**
